SUMMARY

Competent and open-minded student with a thirst for knowledge. Proactive in pursuing practical and technical skills through experience. Demonstrated excellent problem-solving, analysis, and practical application skills through class and volunteer work.

EDUCATION

Ateneo de Naga University

Expected Diploma, 2026

Prominent Coursework: Information Management; IS Strategy, Management, and Acquisition; IS Project Management

TECHNICAL SKILLS

Data Analysis and Presentation

- Excellent in managing and manipulating big data using software such as Google Sheets, MS Excel, and R Programming.
- Skilled in using MS Excel and Tableau Public to create dashboards and data stories for data presentation.

Organization Structure and System Analysis

- Experienced in using various software to create diagrams highlighting organizational workflows and processes.
- Competent in analyzing system structures, highlighting inefficiencies, and presenting solutions to streamline processes.

Programming

- Proficient in using HTML, CSS, and C++ for front-end programming.
- Knowledgeable in using Python, Javascript, and SQL for back-end programming.

SOFT SKILLS

- Efficient problem-solving and analytical skills that are applicable in practical situations.
- Optimistic attitude to motivate myself to be productive despite unfavorable situations.
- Active and reliable in collaborative works consisting of three (3) to seven (7) members.
- Adaptive in various situations and flexible in becoming a leader or a follower.

VOLUNTEER EXPERIENCE

Manager and Planner

- Took on the role of a team leader during intramurals to manage players, schedule tryouts and training, procure equipment and materials, and announce updates.
- Proactive in planning and scheduling personal gatherings, taking into consideration everyone's circumstances.

Student Mentor

- Taught and explained to my peers the syntax, purpose, and application of programming functions we have learned in class.
- Guided my classmates into analyzing the problem and finding the solution or answer by applying what we had learned.
